- Personally I think Totnes and surrounding areas have been saturated. Enough is enough. I am aware of the need for affordable homes but we risk turning Tones into a massive town and spoiling one of our treasures. Traffic and parking are already causing huge problems . No more please
- The Petrol Station & Dundridge Yard should stay as industrial & workshop spaces for local employment.

Comments on Sustainable Energy:

- *re solar on green fields:* (steep fields, locally community owned with sheep under them)
- The neighbourhood plan should set a lead in showing how a beautiful environment can contribute to sustainable energy without destroying itself.
- I think that this should be a priority. As a community, we can set a national example and this should be a combination of support for individual initiatives (e.g. solar panels on properties) and community projects.

Please add your own suggestions here:

- Parking charges are terrible. There is nowhere in the town that's free.
- Signs spoil landscape
- *Re improve roads* : No = encourage use of public transport while in area
- Whilst tourism is important, the needs of people who live here are paramount. Totnes is already overful with cafes & trinket shops, we could do with encouraging back useful "real" shops that serve the community needs, not tourists. Also, again encourage people to shop locally.
