

HARBERTON PARISH

COMMUNITY CONVERSATION

What's the big idea?!

THE HUB

The single biggest idea that came up and got energy and support!

A place where people can meet, gather and do activities - and where there are resources to help people make positive changes in their own homes and also in the community more generally. Could be part of an existing amenity, like the community shop or a village hall; or at a new site. Ideas for what the "Hub" could included:

- Community cafe
- A space for kids
- Support/advice for food growing
- Locally grown food on sale - support local growers
- Arts activities and resources
- Place where local groups could meet - a venue for talks & activities
- Electric vehicle charging outside
- Advice & resources on home insulation, cutting energy costs
- Simple advice and resources on health and wellbeing.
- Store of a "library of things" (eg tools) available to share or hire at low cost
- "Bring and take" area - leave things and clothes you don't need/want, picking up things you do
